MAKE A WINE BOTTLE STAND

Rick's Hobby Garage

Metalworking, Woodworking, and Gardening

(Hobbies for the Home and Garden)

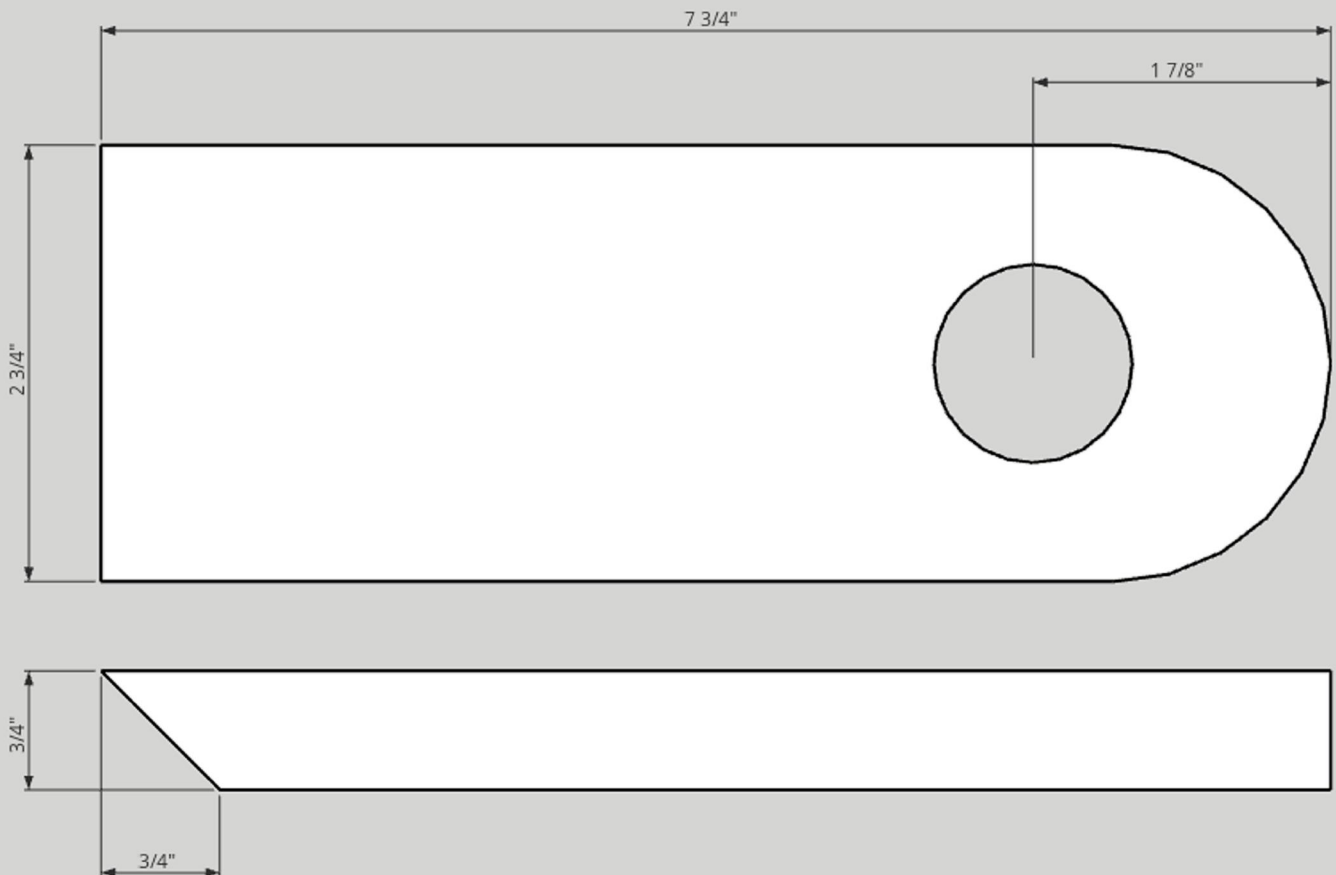

PROJECT OVERVIEW

This is a quick and easy wine bottle stand.

You can make this with or without the leg. I recommend including the leg, especially if you live in an earthquake prone area or the surface you plan on putting this is not so stable.

STAND

This piece can be made and used alone if desired.

LEG

Cut out this peice if you wish to make the stand more stable.
